

DH-PFM532P-D1-IRV

IR Illuminator

- Built with a die cast aluminum cover, it is highly durable and has a long lifespan.
- One-piece lens that provides balanced lighting and is elegantly designed.
- Explosion-proof.
- 12 VDC power supply.
- IP66 rated.
- Multiple installation methods including pole mount, plane mount and wall mount.

System Overview

The IR illuminator is a smart illuminator. You can control the on and off of the Illuminator according to different scenarios. The Illuminator uses an imported LED chip as the light source. With a precise optical design, the light intensity can be evenly and effectively distributed, and achieve the overall highlighting effect and provide professional supplementary light for video monitoring, vehicle and pedestrian detection and capture. The Illuminator can be widely used in scenarios including parking lot, toll station, entrance and exit, and security checkpoint.

Functions

All-in-one Integrated Structure

With aluminum alloy built into its structure, the illuminator is both highly durable and has a long lifespan. It also supports multi-angle adjustment and has a die cast aluminum cover.

Remote Control through RS-485

The illuminator supports remote control through RS-485, making it great for use with remote control cameras.

Strong Environmental Adaptability

The illuminator works in temperatures between -30 °C to +70 °C (-22 °F to +158 °F), making it ideal for use in a wide variety of outdoor scenes.

Protection

Lightning protection supports 4 kV differential mode and 6 kV common mode.

Easy Installation

Supports multiple installation methods including pole mount, wall mount and plane mount.

Certification

CE approved.

Technical Specification

Protection

Vanda-proof	IK10
Protection	IP66
Surge Protection Grade	Common mode: ±6 kV; Different mode: ±4 Kv

Basic

Light Source	LED
